## **Welcome to DialogLink - Version 5**

### **Revolutionize the Way You Work!**

## **New on Dialog**

### **Enhanced Derwent World Patents Index Now Available**

The enhanced *Derwent World Patents Index*<sup>®</sup> (*DWPI*<sup>SM</sup>) (Files 350,351,352) is now available on Dialog. The improvements implemented in *DWPI* on Dialog further extend the database's rich content set and enhances overall functionality of the database.

In addition to distilled expert analysis reflected in *DWPI* expanded titles and abstracts, other enhancements include original patent filing details, multiple patent images, easy cut-and-paste patent family data, and much more.

The new templates include new features that will help you manage and distribute your *DWPI* search results in an attractive format.

Learn about all of the new *DWPI* enhancements and report templates at <http://www.dialog.com/dwpi>.

### **DialogLink 5 Release Notes**

New features available in the latest release of DialogLink 5 (November 2005)

- Ability to resize images for easier incorporation into DialogLink Reports
- New settings allow users to be prompted to save Dialog search sessions in the format of their choice (Microsoft Word, RTF, PDF, HTML, or TEXT)
- Ability to set up Dialog Alerts by Chemical Structures and the addition of Index Chemicus as a structure searchable database
- Support for connections to STN Germany and STN Japan services

...Thompson, Tom

#### Abstract:

IBM's ThinkPad 240, Compaq **Computer** Corp.'s Armada M300, Sharp Corp.'s Actius Pro A280, Acer America Corp.'s TravelMate 342T, Compaq's Armada M700, Compaq's ProSignia 170, Dell **Computer** Corp.'s Latitude CPi R400, IBM's ThinkPad 600E, Gateway Inc.'s Solo 9300XL, and Apple **Computer** Inc.'s PowerBook G3 400 notebook **computers** are reviewed.

#### Text:

...CONS: Screen is dimmer than most; CPU is less powerful

This, the smallest full-power **computer** IBM makes, is actually quite close in size and weight to its Windows CE cousin...

...more RAM, a hard drive and Windows 98, all making it a much more useful **computer**. As with other ThinkPads, you get the full set of Lotus Smart Suite Millennium edition...

...stand-alone CD player, and the built-in batteries (not needed when connected to the **computer**) add considerable bulk and weight. There are other outboard CD drives on the market that...

...isn't the machine for heavyduty calculations - but then you wouldn't normally pick a **computer** this small for such applications anyway, regardless of its CPU power. For normal office applications...

...complete package; really portable

CONS: Keyboard too flat; screen smaller than it could be

Compaq **Computer** Corp.'s latest sidearm for the traveling

**computer** user (I've promised never to write "road warrior" again) is a very neat machine. The main **computer**, minus all removable storage, is contained in a small package that's eminently usable. Plenty...CONS: Awkward mouse connection; breakable cover on one oft-used port Of all the notebook **computers** I examined in preparing this report, none is so subtle and so elegant as Sharp...

...with a bright, clear screen and a surprisingly good keyboard.

You might worry that a **computer** this light could slide off your lap; Sharp has anticipated this with a suede leather...

...for lightest weight and maximum mobility. It has the largest screen of any 3-lb. **computer**, a full 12.1 in. of bright, clear 800-by-600-pixel LCD. That it...

...for what it delivers and for the overall design. If you can take just one **computer** with you to the board of director's meeting, this one will make you the...

...plug the combo drive (either 24-speed CD or DVD) in or out while the **computer's** on.

The keyboard is nearly full size, offering pretty good feedback. ...those who prefer it. This is the kind of ergonomic, personal preference option I believe more **computers** should offer, because users tend to like one system and hate the other except for...

...faster than any normal user is likely to need and almost certainly faster than whatever **computers** they are replacing in the enterprise. There seems a bigger disparity in prices between the...drive. The Latitude seems well-built and rugged, but it offers fewer features than many **competitors**. There's no built-in modem or network adapter, for example. Also, because of the...

...disconnect. The dock itself is nicely done; it's easy to attach and detach the **computer**, and alignment is automatic.

Cursor movement is via a built-in touch pad; a slightly...

...I'm married to this particular machine; we're paired up in a long-term **relationship**, and I'm by now fully aware of its flaws based on intimate familiarity and...Incompatible with "Al some fax software; can't take Type III PC cards

This Apple **Computer** Inc. system has a 400-MHz PowerPC 750 (G3) processor, 1M byte of cache RAM...

...CardBus slot and precludes using older expansion modules.

This PowerBook is an exceptionally well-connected **computer**, with a full range of ports that let you hook up practically any peripheral: An...

...SLICER

Job: CEO and acting chief technology officer, IcanBuy.com Inc. in San Francisco, an **e-commerce** site that lets kids use parentfunded debit accounts for online purchases.

## **Welcome to DialogLink - Version 5**

### **Revolutionize the Way You Work!**

## **New on Dialog**

### **Enhanced Derwent World Patents Index Now Available**

The enhanced *Derwent World Patents Index*<sup>®</sup> (*DWPI*<sup>SM</sup>) (Files 350,351,352) is now available on Dialog. The improvements implemented in *DWPI* on Dialog further extend the database's rich content set and enhances overall functionality of the database.

In addition to distilled expert analysis reflected in *DWPI* expanded titles and abstracts, other enhancements include original patent filing details, multiple patent images, easy cut-and-paste patent family data, and much more.

The new templates include new features that will help you manage and distribute your *DWPI* search results in an attractive format.

Learn about all of the new *DWPI* enhancements and report templates at <http://www.dialog.com/dwpi>.

### **DialogLink 5 Release Notes**

New features available in the latest release of DialogLink 5 (November 2005)

- Ability to resize images for easier incorporation into DialogLink Reports
- New settings allow users to be prompted to save Dialog search sessions in the format of their choice (Microsoft Word, RTF, PDF, HTML, or TEXT)
- Ability to set up Dialog Alerts by Chemical Structures and the addition of Index Chemicus as a structure searchable database
- Support for connections to STN Germany and STN Japan services

**Text:**

...will be.

Most applications rely on passwords, cards, personal identification numbers, and keys to access **restricted** information or confidential files. But passwords, cards, personal identification numbers, and keys can

be forgotten...

...to accommodate such access; and IP spoofing has become quite common to get around these **restrictions**.

Because many e-commerce transactions can result in legal actions (e.g. contracts) that bind...chip-sized finger readers in different electronic devices, such as keyboards, handheld computers, cellular phones, **ATMs**, television remote **controls**, automobiles, building security, and home lock systems. Some people even see this technology as a ...

...for gun safety. A gun with a self-contained fingerprint or handprint recognition system could **restrict** use to the gun's rightful owner.

Palm/hand

Palm/hand scanners, a variation of...airport, scanning crowds for terrorists or thieves. Scotland Yard is evaluating TrueFace, a system from **rival** Miros Inc. (Wellesley, MA). TrueFace is being used by a check-cashing machine operator in...

...software has come a long way in the past few years. No longer is it **restricted** to giving commands to computer programs. It is being used more and more for dictation...network log-ins.

Applications

Biometric devices have a bright future. Proponents foresee their use in **ATMs**, access **control** door security, computer security, and time clocks. Optimists foresee passports, drivers' licenses, mortgage loan applications...information, and academic or disciplinary records. Researchers may want to have biometric devices installed to **block** unauthorized access to research findings, dissertation work, or research conducted under government or foundation grants...

...find their way into library applications as publishers, aggregators, and electronic information providers attempt to **restrict** access only to authorized subscribers or licensees. Instead of having to manage a range of ...

...distributed and available in public directories) and a private key (held as private, like an **ATM** PIN code). While there are other forms of encryption available, privacy advocates favor public key...and terrorism. They fear that, if encryption becomes too effective and too widespread, it will **prevent** - or at least curtail - what they consider necessary and appropriate surveillance of terrorists, drug dealers...

...reason, the US government has classified the export of encryption software under the same export **restrictions** reserved for weapons and munitions unless the software includes a recovery, or escrow, mechanism that...

...business interests point out that the technology is already available

internationally. They say that imposing **restrictions** is simply "closing the barn door after the horses have gone".

While the government's...

...the only way to view the contents of a cryptolope. The underlying idea is to **prevent** pirates from gaining access to and copying digital products while not making it difficult for...information into content, making compliance easier.

Wave Systems, Inc.'s (Lee, MA) WaveMeter is another **competitor**. The company originally introduced the WaveNet concept to the public in its electronic **commerce Web site**, The Great Stuff Network. Another player to watch is the Association of American Publishers[6], which hopes to develop a standard for protecting copyrights in cyberspace. With all these **competitors**, we cannot expect to see a universal standard

adopted any time soon.

Secure transactions

The...

...Secure Sockets Layer (SSL) v3 protocol in Java applications for use in banking, financial services, **Web** publishing, and consumer and electronic **commerce**.

Secure Sockets Layer, a protocol originally developed by Netscape is the most widely used security...XML into the client and server. This will enable anybody with a computer and a **Web** browser to engage in electronic **commerce**. While OFX is laying the groundwork for the future of electronic commerce, the Financial Services...

...by credit card companies in a fraudulent transaction, but will put a red ribbon on **merchant sites** that meet its encryption and electronic-mail notification requirements. Companies that are able to build ...the integrity of the parties may go further than establishing and promoting the infrastructure for **Web commerce**. This authentication may become an important condition of conducting business electronically.

	Country	Number	Kind	Date
Patent				19

Detailed Description:

...program (i.e., the exception handler of the present invention) with a few try catch **blocks**;  
Figure 148 depicts a program (the polymorphic exception handler) with smaller catch **blocks**; Figure 149 illustrates a flowchart for a method for distributing incoming requests amongst server components...for assigning independent copies of business data to concurrent logical units of work for helping **prevent** the logical units of work from interfering with each other in accordance with an embodiment...solutions. However, HTML has proven to be inadequate in the following areas.

Poor perfon-nance;  
**Restricted** user interface capabilities;  
Can only produce static Web pages;  
Lack of interoperability with existing applications... ..on multiple platforms, and are being supported by over 100 companies. The group's building **blocks** are called ActiveX Controls, small, fast components that enable developers to embed parts of software...often more user friendly or functional Desktop Manager Services are required.

Microsoft Windows 95 task **bar**; Norton Navigator; Xerox Tabworks; Starfish Software Dashboard  
Product considerations  
Exemplary products that may be used to enable this component include.

Microsoft Windows 95 task **bar** - provides a launch **bar** which allows users to access recently used documents, launch applications, or switch between active applications. The Windows 95 desktop and launch **bar** are

programmable allowing users to extend and customize the desktop manager for their specific application...E3M OS/2, UNIX, or UNIX Motif, is an important consideration, as are any hardware **restrictions**.

What type of learning curve is associated with the tool?

Developers using the product should... ..within an application is to list available functions or information by means of a menu **bar** with associated pull-down menus or context-sensitive pop-up menus. This method conserves screen...a picture of a bank branch with tellers and loan officers).

Customized Menu - a menu **bar** with associated pull-down menus or context-sensitive pop-up menus. However, as mentioned earlier...look for include but are not limited to.

WYSMYG print preview

Ability to create views - **prevents** users from getting overwhelmed with choices when selecting a table, acts as a security system...divided as follows.

Display: These services enable applications to represent application objects as icons and **control** the **display** characteristics (color, location, etc.) of these icons.

Input/Validation: These services enable applications to invoke...corporate data and resources, as opposed to securing an applications detailed functions.

The security component **prevents** unauthorized users from accessing corporate data/resources by providing the users with access codes - password... ..login to the system or execute any (or a particular) application.

102

Security components can **restrict** access to functions within an application based on a users security level. The highest level...be able to be controlled by user, role, and group. Analogous to record locking to **prevent** two users from editing the same data, document management access control services include check-in...naming and security for files on distributed platforms.

Microsoft's Windows NT Server

Server Message **Block** (SMB) - native file-sharing protocol in Windows 95, Windows NT, and OS/2.

Common Internet...following is an example of a desktop voice mail product.

Octel Communication's Unified Messenger

**Terminal** 1518

**Terminal** services allow a client to connect to a non-local host via a network and... ..when a workstation application logs on to a mainframe, the workstation functions as a dumb **terminal**. **Terminal** Services receive user input and send data streams back to the host processor. If connecting from a PC to another PC, the workstation might act as a remote **control terminal** (e.g., PCAnywhere).

The following are examples of Ten-ninal services.

Telnet - a simple and widely used **terminal** emulation protocol that is part of the TCP/IP communications protocol. Telnet operates establishing a... ..the remote machine while the remote machine sends back the characters displayed on the local **terminal** screen.

3270 emulation - emulation of the 3270 protocol that is used by EBM mainframe **terminals**.

tn3270 - a Telnet program that includes the 3270 protocol for logging onto 113M mainframes... XWS include integration with the Web and optimization of network traffic (caching, compression, etc.).

**Remote control** - While **terminal** emulation is typically used in host-based environments, remote control is a sophisticated type of client/server **Terminal** service. Remote **control** allows a client computer to control the processing on a remote desktop computer. The GUI... it appear as if the remote applications are running on the client.

rlogin - a remote **terminal** service implemented under BSD UNIX. The concept behind rlogin is that it supports "trusted" hosts... services could be used by other communications services such as File Transfer, Message Services, and **Terminal** Services. A Name service can be implemented on its own, or as part of a... until the servers response is received. This type of program control is also known as **blocking**.

Some RPC vendors are enhancing their products to support asynchronous program control as well.

What...transfer 1530

File Transfer services enable the sending and receiving of files or other large **blocks** of data between two resources. In addition to basic file transport, features for security, guaranteed... size information. Remote file access protocols, such as Network File System (NFS) also use a **block** transfer method, but are optimized for online read/write paging of a file.

HyperText Transfer... Since the client is dependent on the response from the server, it is non-nally **blocked** from performing any additional processing until a response is received. This type of synchronous data exchange is also referred to as **blocking** communications.

Possible Product Options

Sun Microsystems ONC+; OpenGroups DCE RPC; Novells NetWare RPC; NobleNet's... the reply to arrive at a subsequent time. Thus, unlike RPCs, MOM implements a "non-**blocking**" or asynchronous messaging architecture.

Message-Oriented Middleware products typically support communication among various computing platforms... PeerLogic's PIPES

PIPES Platform applications communicate through a messaging interface that allows asynchronous, non-**blocking** communications. The messaging model is well-suited to complex multi-tier applications because it inherently... systems can be grouped into two broad categories.

Front end access - discussed as part of **Terminal** Emulation

Back end access - tend to be used when existing data stores have information that... strength encryption (128 bit).

Encryption 1552

Encryption services encrypt data prior to network transfer to **prevent** unauthorized interception.

(Note that encryption can occur within the Communications ...protocol.

Implementation considerations

The advantage of SSL over S/HTTP is that SSL is not **restricted** to HTTP but can also be used for securing other TCP/IP based services such... complex legal issues surrounding the use of encrypting in an international environment. The US government **restricts** what can be exported (in terms of encryption technology), and the

French government defines encryption technology as a "weapon of war" with appropriate legal and regulatory **restrictions**. This is a key issue in international e-commerce today.

#### Possible Product Options

Netscape's... ..variety of mechanisms exist for protecting private networks including.

Filters - World Wide Web filters can **prevent** users from accessing specified content or Internet addresses. Products can limit access based on keywords... ..additional credentials for logging on, set specific dialing hours or days of the week, and **restrict** access to certain sites altogether.

164

Netscape Proxy Server - high-performance server software for replicating...Internet or intranet is not as simple and is a rapidly evolving area. When building **e-commerce Web sites** there may be a need to **restrict** access to areas of information and functionality to known customers or trading partners. More

165... ..Related to authentication, non-repudiation is a means of tagging a message in order to **prevent** an entity from denying that it sent or received the message.

166

Possible Product Options...deliver each packet to all users involved in a multicast session)

IPX (Internetwork Packet Exchange)

**ATM** (Asynchronous Transfer Mode)

Frame Relay

X.25

SMDS (Switched Multimegabit Data Service)

The following are examples of network components that perform Packet Forwardin&/Intemetworking.

routers

switches

172

**ATM** switches, Frame Relay switches, IP switches, Ethernet switches, Token Ring switches, etc.

The following are...explicitly allowed, thus enforcing the policy, Only allow traffic that has been categorically permitted, otherwise **prohibit**. This policy provides much more control and is much safer than a policy which allows traffic unless it has been explicitly **prohibited**.

#### Possible Product Options

Cisco Systems; Bay Networks; Kom Corp.; Check Points Firewall-1; Raptor Systems... ..various ways as listed below.

Specialized QoS Communications Protocols - provide guaranteed QoS.

Asynchronous Transfer Mode (**ATM**) - **ATM** is a connection-oriented wide area and local area networking protocol that delivers QoS on... ..initial connection set up and as network conditions change. Because of the small size of **ATM** data cells, QoS can be better managed, compared to protocols such as Ethernet that have large frames that can tie up network components. For **ATM** to deliver QOS to applications, **ATM** must be used end-to-end.

Resource Reservation Protocol (RSVP) - The emerging RSVP specification,

proposed... ..to reserve  
resources from end to end, using Frame Relay techniques on Frame Relay

networks,

**ATM** techniques on **ATM**, and so on. In this way, RSVP can achieve QoS across a variety of network... ..that can increase network throughput for streams of data by combining EP routing software with **ATM** switching hardware. With IP Switching, an IP switch analyzes each stream of packets directed from... ..specific destination, and classifies it as short- or long-lived. Long-lived flows are assigned **ATM** Virtual Channels (VCs) that bypass the IP router and move through the switching fabric at the full **ATM** line speed. Short-lived flows continue to be routed through traditional store-and-forward transfer.

Tag... ..The following are examples of Media Access protocols.

Ethernet

token ring

FDDI

portions of the **ATM** standard

HDLCS/SDLC

LAPB

T-carrier, E-carrier (e.g., T1, T3, E1, E3)

TDM...Generate Report, This module is called to request report generation and printing (optional).

Input data **blocks** specify the following.

Report name

Report parameters

Report generation time (default is immediately)

Printer name... ..report status.

230

In all cases, the report name is passed through an input data **block**. For the print service, a printer name is passed. For status update, the new status... ..may occasionally contain sensitive information. It is therefore important that access to certain reports be **restricted** to authorized users. The report architecture should provide a mechanism for implementing report level security...the use of Java applets, JavaBeans, Plug-ins and JavaScript from Sun/Netscape and

ActiveX **controls** and VBScript from Microsoft

The developers of business logic should be shielded from the details...take a physical perspective. They view components as independent pieces of software, or application building **blocks**, that implement those real-world business concepts. These are Partitioned Business Components. Developers also emphasize...Business Components implement those concepts in a particular environment. They are the physical building **blocks** used in the assembly of applications. As independent pieces of software, they encapsulate business data... ..typically packaged as black box capabilities with well-defined interfaces. They are the physical building **blocks** used in the assembly of Partitioned Business Components. Examples include: a ActiveX control.

Components are...as starting points for designing and building this code.

Engineering Components are physical building **blocks** used in the assembly of Partitioned Business Components. They are independent pieces of software that...well known, but often neglected concept in application development.

Partitioned Business Components are application building **blocks**. As an application modeling tool, they depict how various elements of an application fit together...not bound to a particular program, computer language, or implementation... They are the optimal building **blocks** for creating the next generation of distributed systems... Components are standalone objects that can plug...
